"Big phone and cable companies like AT&T, Verizon, Comcast and Time Warner oppose Net Neutrality and prefer "network management" practices that allow them to block certain content in favor of Web sites and services the companies prefer. The only difference between this practice and the equivalent practices in China, Russia or any other Communist/totalitarian country is who does the controlling. In their case, a self-selected group of politicians would be in control and in our case a self selected corporate entity. Both of these approaches are incompatible with a democracy of the people by the people. I hope you will support net-neutrality and uphold our democracy. Peggy & David "

"Maybe it is time for the various forms of telecommunications/media – web, cable, phone, radio, newspapers, etc. to become a 'public utility' managed as a non-profit foundation for public use. 'Greed' has developed a valueless set of priorities in this particular industry. Telecommunications/media have become more entrenched in political statement, and abuse of power trending toward monopolistic practices than providing a SERVICE for the AMERICAN people. Keep the Net Neutral or the American people will demand radical revision of the industry, that would be similar to the early 20th century elimination of the BIG BOSS MONOPOLIES - OIL, RAILROAD, and BANKING... and we know the outcome of those industries until the recent eight years of GOP deregulation ===== RECESSION, CORRUPTION, RECORD DEBT, ILLEGAL WAR, RECORD TRADE DEFICIT, SPYING ON AMERICANS, The TORTURE ADMINISTRATION, GLOBAL WARMING FAILURE, LACK OF CREDIBILITY, and AGENCY-WIDE INCOMPETENCE. MR. Schuster repent your parties divisiveness, deceptiveness, and dysfunctional policies. Please THINK, REASON, and begin to represent "ALL" the people in your district!! Moderation and compromise have been the 'Keystone' of our state, and national governance. STOP "
